Career Objective

Recent B. Tech (Artificial Intelligence) graduate with hands-on experience in machine learning, data preprocessing, and model deployment. Passionate about building AI-powered applications and seeking an AI/ML role to develop scalable solutions for real-world problems.

Technical Skills

Programming: Python, C, SQL, JavaScript Basics
AI/ML & Deep Learning: Machine Learning, Deep Learning, CNN, NLP Basics, Computer Vision
Frameworks & Modules: TensorFlow, Keras, Scikit-learn, OpenCV, NumPy, Pandas
Data Science: Data Cleaning, Data Preprocessing, EDA, Feature Engineering, Model Evaluation
Visualization: Matplotlib, Seaborn
Backend & Deployment: Flask, REST APIs, Streamlit, Model Deployment Basics
Databases: MySQL, MongoDB Basics
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Postman
Core Concepts: Predictive Analytics, Hyperparameter Tuning, Data-Driven Decision Making
Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Quick Learning

Projects

Plant Disease Detection using Deep Learning (CNN)
Developed an AI model to detect plant diseases from leaf images using OpenCV for preprocessing. Improved accuracy through image enhancement techniques and integrated the model with a web interface for real-time predictions.

AI Medical Assistant (BERT + GPT-2)
Built an AI-powered medical chatbot using BERT and GPT-2 for NLP tasks. Integrated Flask APIs with the frontend for real-time, context-aware interactions. Improved response accuracy and overall user experience through efficient query handling.

Internships & Training

AI & ML Intern – Elevate Labs (Jan 2026 – April 2026)
Recognized as Best Performer for improving model accuracy. Worked on model optimization, evaluation metrics, and deployment-ready ML solutions.

AI Design Intern — People Media Factory (June 2026 – Sep 2026)
Working on AI-based design and creative projects. Using AI tools to generate and refine visual/creative content. Applying AI concepts and design skills to practical projects.

Education

KIET for Women, Kakinada -B. Tech in Computer Science (AI) | CGPA: 7.98| 2022–2026
Sri Padmavathi Junior College, Jangareddygudem - Intermediate (MPC) | 73% | 2020–2022
Sree Bharathi Public School, Chintalapudi - SSC | 100% | 2019–2020

Certifications

Artificial Intelligence & Machine Learning Internship — Elevate Labs
AI & Emerging Technologies — Edunet Foundation
AI & Machine Learning with Python — Venura Tech
